

PROFILE

Professional Summary

Operations and marketing professional with 22+ years of cross-functional expertise across web development, digital marketing, and business automation. I build WordPress sites and modern Next.js / React web applications, full GoHighLevel CRM and funnel systems, AI chatbots, and end to end marketing and operations automation for businesses that want to scale. Comfortable owning a project from strategy through build, launch, and handoff.

WORK EXPERIENCE

22+ Years of Impact

Operations & Marketing Manager

Led operational processes and delivery for 238+ global clients. Owned WordPress development, GoHighLevel CRM and funnel deployments, AI chatbots, and marketing automation, keeping delivery streamlined, cost effective, and high quality.

Operations & Marketing Manager

Managed end to end operations including inventory, production coordination, supplier management, and order processing. Built the company's digital presence and online sales channels.

Operations & Marketing Head

Led marketing strategy, brand positioning, and client acquisition. Oversaw digital campaign planning, managed the marketing team, and drove sustained lead generation and growth.
