QUESTIONS

Private Capital Readiness Assessment

Every ad points here. The prospect answers, and the answers **score and route them automatically**, so a ready buyer and a curious browser never get treated the same. This is what the last two vendors never had.

— SCORED, THEN ROUTED THREE WAYS —

HIGH SCORE

Ready now

Qualified and raising.

Fast tracked straight to a consult while intent is hot.

- Instant booking link, calendar offered on the spot
- Context and answers passed to Joseph before the call
- Reminder sequence so they actually show

→ Booked consult with Joseph

MID SCORE

Not yet, but real

Right profile, wrong timing.

Enters the nurture engine and stays warm until the deal is live.

- Educational email sequence tuned to their answers
- Joseph's videos build trust over weeks
- Retargeting keeps him top of mind

→ Into the nurture engine ↓

LOW SCORE

Early or unfit

Not a fit today.

Kept on a light long term touch, no time wasted, no calendar clogged.

- Low frequency, high value content only
- Re-scored if they come back and engage
- Joseph's calendar stays clean of tire kickers

→ Long term drip

4

The nurture engine

where warm becomes ready

Staying top of mind until they raise

continuous loop

Most private capital prospects are not ready the day they find you. The engine keeps Raetzer the obvious call for the day they are.

EMAIL

Tailored sequences

Branched by assessment answers, so the message fits their situation.

VIDEO

Joseph, on camera

Short educational pieces that build authority and familiarity.

RETARGETING

Always in view

Warm ads on Meta and YouTube keep the firm present between touches.

SIGNALS

Re-engagement

Opens, clicks, and replies re-score the lead and can promote it to hot.

↺

When a nurtured lead re-engages, **it re-enters as a high score** and books a consult. Warm leads become ready leads on their own timeline.

5

Where you take over

the engine hands you a prepared buyer

JR

A qualified, informed prospect lands on the calendar, already warmed by the content and pre-briefed by their answers. The engine's job is done, yours begins.
