3. Phases and timeline

The trial runs in five phases, from payment to the final review; posting weeks are counted from the go live date.

Phase	When	What happens	What the Client receives
0. Kickoff	Day 0	Agreement signed, payment received, game confirmed. Client sends game materials.	Payment confirmation
1. Preparation	Days 1 to 5	BVN selects and briefs the 35 pages and groups, produces the first creatives, builds the content calendar and sets up the tracking sheet.	Content calendar and tracking sheet link
2. Launch	Week 1	Posting goes live across all pages and groups. Comment pool starts discussions. BVN tests different content types.	First weekly report
3. Optimise	Weeks 2 and 3	More posts move to the pages and content types with the best engagement. Group threads and polls continue twice a week.	Weekly reports
4. Peak and report	Week 4, then up to 3 working days	Highest posting volume using the best formats. Final report prepared.	Final trial report and review call, with a recommendation for next steps

If the Client's materials arrive late, the go live date moves by the same number of days.

4. Client responsibilities

The Client provides the game materials before launch and one contact who approves content quickly.

- The name of the game to feature and a short description of its main features and bonus rounds.
- Gameplay footage or screen recordings, especially bonus rounds and big wins.
- Game visuals such as symbols, characters and backgrounds, without the Client's logo.

- Demo access to the game so BVN can record extra footage.
- Anything that must not be said about the game, and the list of PAGCOR licensed operators that carry it.
- One contact for content approval, replying within 24 hours. Content not answered within 24 hours may be treated as approved so the calendar stays on schedule.
- Optional: a weekly export of active users for the game, so BVN can compare it with posting activity.

5. Fees and payment

The fee is USD 2,800, paid in full in USDT on the Ethereum (ERC20) network before any work starts.

Fee	USD 2,800 (2,800 USDT), all inclusive
Invoice	BVN20261028A
When	In full, upfront, before Phase 1 begins
Currency and network	USDT on Ethereum (ERC20) only
Wallet address	0xD8cf672e312fB82d449Bf709241405636C3BB428

- USDT sent on any other network, such as TRC20 or BEP20, cannot be recovered and does not count as payment.
- Network fees are paid by the Client, so the full 2,800 USDT must arrive in the wallet.
- The Client sends the transaction hash after paying, and BVN confirms receipt.
- The fee covers all page and group placements, content production, management and reporting. All page and group admins are paid by BVN.
- The fee is non refundable once Phase 1 has started, because pages are booked and content is produced from that point.
- **Trial credit:** if the Client signs a monthly package within 7 days of the final trial report, 50 percent of this fee (USD 1,400) is credited against the first month.

6. Content, compliance and reporting

All content talks about the game from a player's point of view, never names the Client, and follows the rules below.

- The Client's name and logo never appear in the content.
- Every post carries an 18+ and responsible gaming line.

- Paid partnership labels are used where the platform requires them.
- No content aimed at minors, and no pages whose audience is mainly under 18.
- No promises of winnings.
- When players ask where to play, pages point only to PAGCOR licensed operators provided by the Client.
- If a platform removes a post, BVN replaces it within the same week at no extra cost.
- Every post is logged in the live tracking sheet with its link, date, page, reach and engagement. The Client can open the sheet at any time.

7. Terms

7.1 Results. BVN guarantees the volume of work in Section 2, not a specific reach, engagement or number of players, because those depend on the platforms and the audience. If BVN delivers fewer posts than agreed, it adds the missing posts in the following week at no cost.

7.2 Confidentiality. Both parties keep the other's business information private, including this agreement, pricing, game materials, the list of pages and groups, and results. This continues after the trial ends.

7.3 BVN's network. The pages, groups, admins and accounts BVN works with are BVN's confidential business network. During the trial and for 12 months after it, the Client will not contact, hire or pay any of them directly for similar work without BVN's written agreement.

7.4 Ownership. The Client keeps all rights to its games, footage and visuals. The Client may reuse the memes and clips BVN produces for this campaign. BVN may keep the results private and will not name the Client publicly without the Client's permission.

7.5 Term and ending. The trial runs for 4 weeks of posting from the go live date and ends automatically after the final report. Moving to a monthly package needs a new written agreement or invoice.

7.6 Liability. Each party's total liability under this agreement is limited to the fee paid. Neither party is liable for platform decisions, such as removal of posts or pages, beyond the replacement promise in Section 6.

7.7 Governing law. This agreement is governed by the laws of the Republic of the Philippines.

7.8 Whole agreement. This document, together with invoice BVN20261028A, is the full agreement for the trial. Changes must be agreed in writing, and a confirmation on Telegram or email counts as writing.

8. Signatures

By signing, both parties agree to the terms above.
